Experience

FRONT END DEVELOPER September 2023 - April 2024
AfterFlea.

- Led the design and development of dynamic user interfaces for an AI-based social media platform, aligning with user requirements and industry standards.
- Collaborated with project managers to establish and meet ambitious coding milestones, contributing to successful pre-release software projects.
- Employed HTML, CSS, and JavaScript frameworks such as React.js to create responsive and engaging interfaces, ensuring optimal performance and user satisfaction.

Projects

BitcoinNav | Front End Developer

- Developed BitcoinNav, a user-friendly website simplifying navigation in the Bitcoin ecosystem for beginners and experts alike.
- Utilized HTML, CSS, and JavaScript to create an intuitive interface with clear navigation paths and interactive features.
- Engaged with stakeholders to gather feedback, iteratively refining BitcoinNav for optimal usability, and fostering positive user experiences.

Sticky Type | Front End Developer

- Developed Sticky Type, a user-friendly website designed to enhance typing speed through engaging exercises and challenges.
- Implemented HTML, CSS, and JavaScript to create an interactive and visually appealing platform with customizable typing exercises.
- Collaborated with the team to ensure seamless integration of frontend components, resulting in a dynamic and effective typing training tool.

Education

FRONTEND & MOBILE DEVELOPMENT - NuCamp BootCamp, Dallas, Texas September 2023
